Hospital Partner Application

Thank you for your interest in joining our network of partner hospitals.

Co-op Vision seeks to improve the lives of children within hospitals, abuse clinics and homeless across the world.

Co-op Vision was founded in 2015 and is a 501(c)(3) nonprofit charity registered in Delaware, with offices in Washington, California and Florida. We look to partner with non-profit facilities to provide toys and games to pediatric patients.

We accept donations in the form of physical products or cash in order to buy the necessary toys and games to donate. We also have an online store where generous video game players can make a purchase to help donate towards our cause.

Every month, our goal is to deliver to each partner in our network a box of toys and games. We try to ensure each box is filled with items that can help your patients. We can also do special requests as well for particular patients.

Applicants must be currently registered as a 501(c)(3) non-profit organization or have equivalent status for international charities. Please provide the following information to apply as a network partner. **Once you're finished filling out the bottom form, email to :**
